John Cicnocki, 2044 W. 19th arrested. Robbery suspect.

Gusie Siden, 6, 2617 Hirsch blvd., hit by car. Seriously hurt.

WILL WAGE WIDE WAR ON EVIL WHICH CUTS 30,000 BIRTHS

Abortions will not be fashionable and popular when the expose of doctors, midwives, maternity homes and hospitals is completed. Today the federal, state, county and city authorities will commence a campaign to stamp out this practice.

Here is how the heads of various departments of our government intend to act to stamp out the evil which prevents the birth of 30,000 children in Chicago each year. Dis't Att'y Clyne will investigate the traffic in drugs which cause abortion. Coroner Hoffman will probe the charge made by Dr. Hagenow that she paid protection money to carry on her business. Alderman Murry tonight will introduce a bill to the council asking the council to order a probe of maternity homes and midwifery.

Last night at the exclusive and fashionable Lakeside Hospital at 3410 Rhodes av., Mrs. Molly Quinby, Hammond, Ind., died, the result of a criminal operation. Before dying she told physicians she had performed six illegal operations on herself.

Yesterday astonishing facts were brought to light regarding the so-called abortion parlors in the loop. Stenographers, working in offices near the suites of these physicians, told how beautifully gowned women daily throng the offices of men who advertise to kill life with little pain.

The betrayed girl and the working man's wife unwilling to become a mother cannot afford to pay the \$50 or \$100 often demanded by these doctors. They patronize the midwives,

who frequently fail and extinguish two lives instead of one.

The "fashionable doctors" seldom fail with their high-priced instruments and costly drugs.

Physicians divide women who have illegal operations performed into three classes. The first and most numerous is the rich who are too busy having a good time to leave the social whirl for motherhood. The second is women whose husbands are not earning enough to have children. The third, the betrayed girl.

FLYISMS

Says the Chicago board of health: From a single female fly in a single season flies enough may be break to make a string of flies long enough to reach eight times around the globe.

Let this be our battle cry.

"Save the baby, swat the fly."

MORE SERIOUS

"Wife, you have overspent your allowance."

"Oh, that was due to an oversight."

"H'm, it appears to me more like an overdraft."
